Dear Ivor

I know you and your team at IDNR-TV are extremely busy making preparations for getting your television station on the air. At the Ontario Mining Association, we are anxiously awaiting the broadcast launch of IDNR-TV.

When you have confirmed your broadcast affiliation, please let me know as soon as possible. The Ontario Mining Association, which has been in operation since 1920 and is one of the longest serving trade organizations in the country, has 57 member companies with operations in all parts of the province – from Red Lake in the northwest to Perth in the southeast and from Windsor in the southwest to Attawapiskat in the northeast.

We want to make sure our members are informed of the affiliation IDNR-TV has for broadcasting and we want to make sure our members know how to subscribe to watch your channel on television.

Your channel is extremely important to add to the mix of viewing options being made available to the Canadian public. IDNR-TV offers a fresh look at the building blocks of the society and economy of Canada.

Best wishes for success in this important endeavor.

Yours truly

Peter McBride
Manager of Communications
