Dear Mr. Barr:

The Prospectors and Developers Association of Canada commends IDNR-TV for its efforts to establish Natural Resources Television, a Canadian television station with programming on this country's natural resources sector.

The founding of Canada as a nation came about in large part from its natural resources. The search for natural resources opened up this country, serving to advance its economy and enabling Canadians today to enjoy one of the world's highest standards of living.

Canada's rich natural endowment remains as important as ever, and the plans that Natural Resources Television has to bring that message to the general public with programs about mining, the energy sector, forestry, and fisheries are to be applauded.

We wish IDNR-TV every success in its important endeavour.

Yours sincerely,
